All Rights Reserved - Printed in U.S.A.

All song selections on this album were produced from the original master tapes supplied by the appropriate record companies as indicated. All Starland Music albums are manufactured with the same quality materials and facilities utilized by the major record companies. Occasionally, albums may contain song selections produced from master tapes up to forty-five years old. Therefore, allowances should be made for the difference in sound quality for these older selections as compared to more recent recordings. In rare instances, when an original master tape is lost or destroyed, the licensing record company may supply another tape which is produced from the best source available. Even though the quality may not always be equal to the original master tape, Starland Music management may still elect to include these songs. We feel that the vast majority of collectors would rather have these treasured recordings as a part of their collections, irrespective of the occasional lack of quality, than never to have them at all.
